UNC-MX will air a documentary tonight on the inspiring story of cancer survival by Pulitzer-Prize winning photojournalist **John Kaplan**.

In "Not As I Pictured," Kaplan documents his own story of fighting a deadly form of lymphoma.

You can also request a free copy of the movie (for personal use only) at the [NotAsIPictured.org](#) website. The filmmaker is giving away 10,000 free dvds to anyone affected by cancer. Shipping is free.

Music for the film's soundtrack was donated by **Michael Stipe (R.E.M.)**, **Chris Martin (Coldplay)**, **will.i.am (Black Eyed Peas)**, **Justin Timberlake**, **David Bowie**, **Cowboy Junkies**, and **Pantera**.

"Not As I Pictured" will air on UNC-MX at 7 p.m. tonight (October 2).
